Sir:

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), applicant brings to the attention of the Examiner the documents listed on the attached Form PTO-1449. This Information Disclosure Statement is being filed before the issuance of the first office action.

Copies of the listed documents are attached.

In particular, applicants bring to the attention of the Examiner the following references: U. S. Patents No. 5,965,257 of Ahluwalia, and No. 4,784,897 of Brands et al.

It is possible that the Examiner may believe the above-listed references to be more pertinent than other references. However, this submission does not represent that the above references are, in fact, more pertinent than other references. Nor does this submission represent that references that are not listed above are less pertinent than the above-listed references.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that any of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and applicants determine that the cited documents do not constitute "prior art" under United States law, applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 02-4377.

Respectfully submitted,
